MANDLA MONEY

0. Overview & Design Principles

This document defines the exact structure, content, layout, and behaviour of the Mandla Money website. It is the single source of truth for design and development.

Objectives

- Present Mandla Money as **financial infrastructure**, not a fintech app
- Create a **clear, immediate path to action** via WhatsApp
- Establish **trust through regulation and real-world usage**
- Serve both **individual users and organisations**

Design Philosophy

- Tone: Mature, calm, confident
- Visual style: Minimal, elegant, high-trust
- Layout: Generous whitespace, no clutter
- Mobile-first: Primary experience is mobile
- Messaging: Simple, direct, no technical jargon on user-facing pages

Colour System

- Gold: #C9A84C (CTAs, highlights, icons)
- Black: #0A0A0A (hero, footer, trust sections)
- Off-white: #FAF8F4 (main content background)

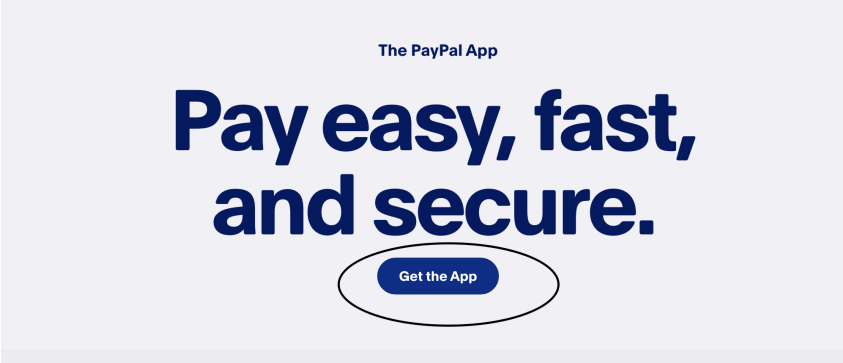
Gold is used sparingly for emphasis. The site remains primarily light with selective dark sections.

1. Primary Call to Action System

Primary CTA (Global)

Text: Start on WhatsApp (the circled part)

This is the most important action on the entire website.



Behaviour

Desktop:

- Clicking CTA opens a **modal (popup)**
- Modal content:

Title:
Start using Mandla Money

Text:
Scan with your phone to open your wallet

Elements:

- Large QR code (minimum 200px)
- Clickable WhatsApp link (wa.me/[number])
- WhatsApp number displayed as fallback

The QR Code for the WhatsApp sign in. (Wondering if maybe the QR code should be beautified e.g. put a Mandla Money logo in the center).

Mobile:

- Clicking CTA opens **WhatsApp directly**
- No modal
- No QR code

Floating CTA Button

- Persistent bottom-right WhatsApp button
- Same behaviour as primary CTA
- Styled in Mandla gold/black (not WhatsApp green)

2. Navigation Bar (All Pages)

Layout

Left:

- Mandla Money logo (links to Home) - should get actual image

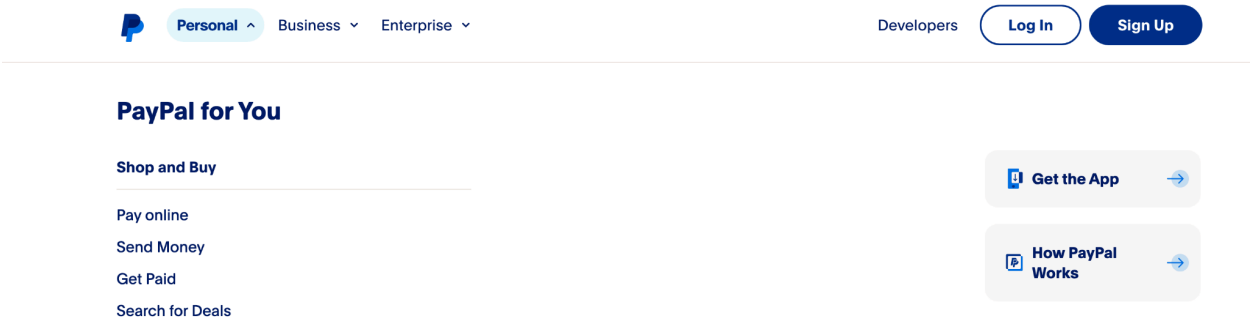
Center:

- Personal
- Business

Right:

- About
- Start on WhatsApp (primary button)

Personal Dropdown



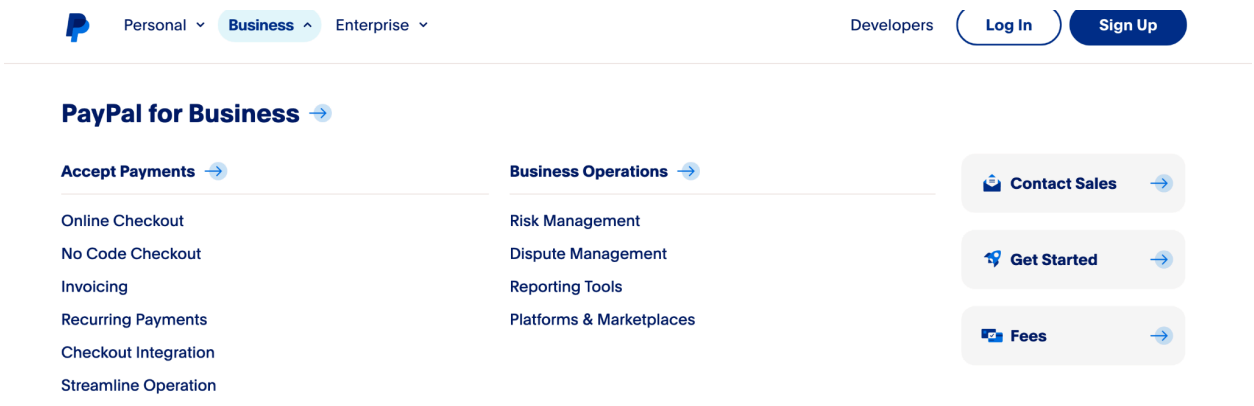
Column 1:

- Send Money — Send to any phone number instantly
- Receive Money — Get paid to your phone number
- Airtime & Electricity — Pay bills via WhatsApp
- Cross-Border Transfers — Send across countries

Column 2:

- Start on WhatsApp →
- QR Code

Business Dropdown



Column 1:

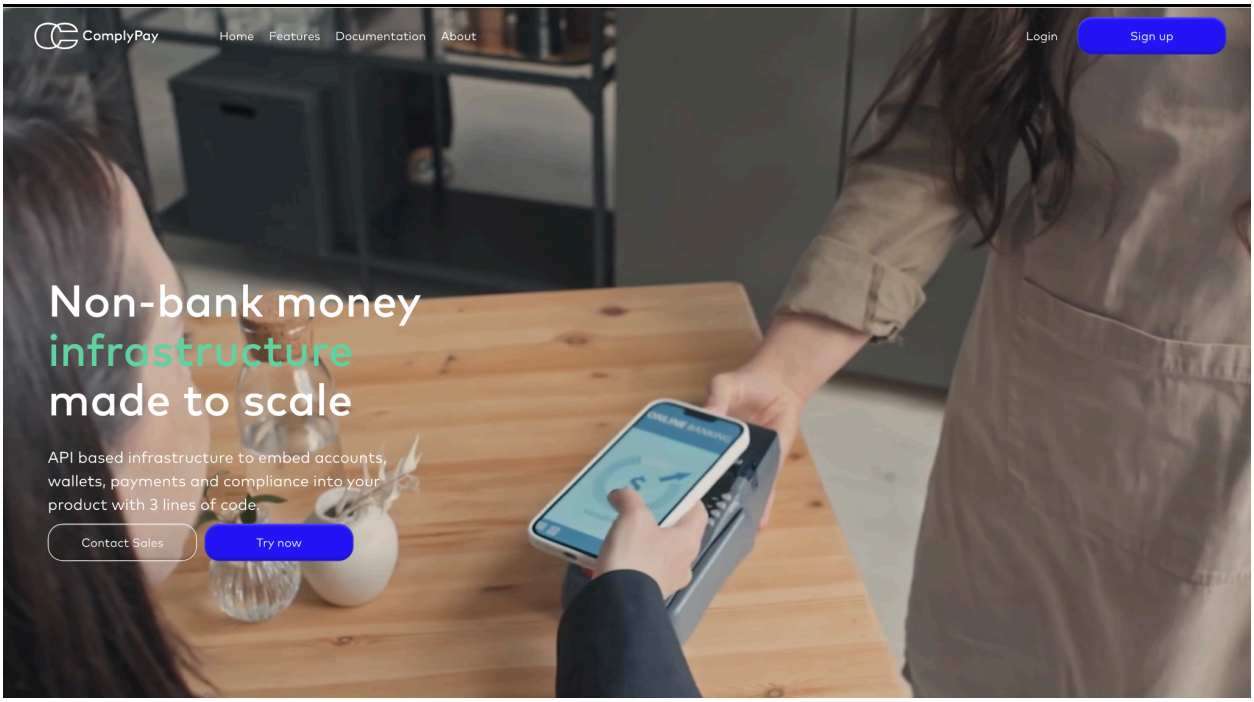
- Bulk Payouts — Pay thousands of recipients
- NGO Disbursements — Grants and aid distribution
- Payroll — Pay workers without bank accounts
- API Documentation — Developer integration

Column 2:

- Talk to Sales →
- View API Documentation →

3. Home Page

Moving background (https://complypay.com/)



3.1 Hero Section

Background: Black (#0A0A0A)
Layout: Two columns (text left, phone mockup right)

Headline:

Your phone number is your wallet.

Subheadline:

Send, receive, and store money instantly via WhatsApp, SMS or USSD.
No bank account. No smartphone required. No friction.

CTAs:

Start on WhatsApp →
For organisations: Bulk Payouts & Disbursements →

Trust Line:

Licensed & regulated · FSP #55523 · Live across 11 countries

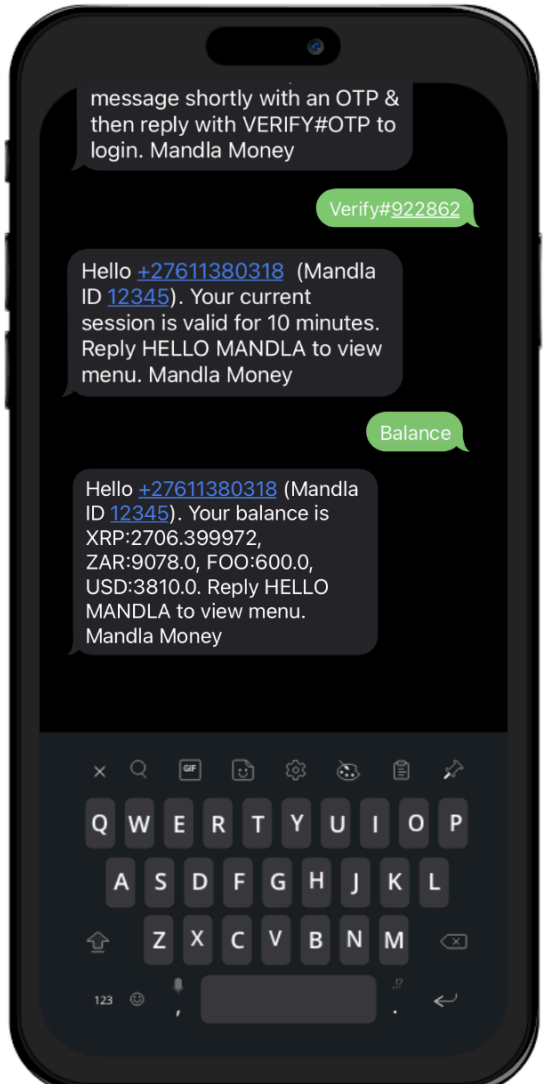
3.2 Social Proof Section

Stats:

- 1,000+ Users
- 11 Countries
- FSP Licensed #55523

Logos (grayscale):
Ripple · Algorand · Tenity · CSIR · RLabs

3.3 How It Works



Header:

How it works

Subheading:

Three simple steps. Any phone. Any network.

Steps:

1. Message Mandla
   Send “Hi” on WhatsApp or dial USSD
2. Set up in seconds
   Your phone number becomes your wallet
3. Send and receive
   Transfer money instantly

CTA:
Start on WhatsApp →

3.4 Core Value Section

Header:

Why Mandla Money

Subheading:

Financial infrastructure designed for how money actually moves

Card 1:

Built for people, not banks

- Send across borders
- Check your balance

Feature Cards

Send and receive
Pay bills
Cross-border

FAQ

- No smartphone required
- No bank account required
- Near-zero fees
- Fully regulated

5. Business Page

Why stablecoins & digital money on Algorand?

Experience stablecoins and digital money on a blockchain built for fast, secure, and reliable transactions.

Fast and cheap payments
Transaction fees on Algorand are incredibly low at 0.001 Algo per transaction, making it a viable option for everyday purchases and microtransactions.

Accessible finance
Stablecoins on Algorand are accessible to all, even those without a bank account. Anyone in the world can set up a mobile crypto wallet and gain access.

Stable value
Algorand users can transact with price-stable assets, lowering cryptocurrency volatility concerns.

Hero

Headline:

Disburse funds to any phone number, anywhere

Subheadline:

Bulk payouts, payroll, and social transfers

CTA: Talk to Sales →

Who It’s For

NGOs
Employers
Fintech platforms

Bulk Payout Flow

1. Upload recipient list
2. Fund account
3. Disburse in one click
4. Track transactions

API Section

Header:

Integrate in hours, not months

CTA: View API Documentation →

Business Value

- Lower cost
- Fully compliant
- No bank accounts required
- Live across multiple countries

Live Partnership Section

Header:

Trusted by organisations on the ground

RLabs — Global community organisation operating across 25+ countries

Mandla Money is actively supporting RLabs with fund disbursements.
This is live infrastructure, not a pilot.

CTA

Ready to move money at scale?

Talk to Sales →

6. Footer

Columns

Mandla Money
Personal
Business
Company

Regulatory Text

Mandla Money (Pty) Ltd Registration Number 2019/470624/07 is an authorised Financial Services Provider (FSP 55523).

Legal Links

Privacy Policy · Terms of Use · Legal Disclaimer

Floating Button

WhatsApp icon (bottom-right, persistent)

7. Mobile Behaviour Summary

- CTA always visible
- Clicking CTA opens WhatsApp instantly
- No QR codes shown in CTA flow
- Navigation collapses into hamburger menu
- Content stacked vertically
- Minimal text, fast loading

8. Final Notes for Developer

- The primary goal of the site is to drive users into WhatsApp
- CTA must be visible and functional at all times
- QR modal must only appear on desktop
- All external links open in a new tab
- Use SVG assets for icons and gold elements
- Ensure fast load times on mobile networks
